1. PROJECT & RECORD

PROJECT	Riverside Business Park — Block C (RBP-C-2025)	CLASS	Live capture — substructure / site condition
OPERATOR	J. Whitfield (site architect) · account attested	DEVICE	iPhone 15 Pro · attestation OK
DESCRIPTION	Standing water in blockwork footings after overnight rainfall — grid A/1–D/4		

2. CAPTURED RECORD

IMG_2417.JPG · captured in-app · simulated scene for mockup purposes

CAPTURE MANIFEST

File	IMG_2417.JPG · 4032 × 3024 · 3.1 MB
Captured (attested)	2026-08-10 11:47:03 UTC (device clock drift < 0.4 s)
Position	50.6412° N, 5.5710° E · ±4 m (GNSS, 11 satellites)
Capture mode	In-app camera only — gallery import: BLOCKED
SHA-256	9f86d081884c7d659a2feaa0c55ad015 a3bf4f1b2b0b822cd15d6c15b0f00a08

3. PROOFS — DUAL RAIL

RAIL A — QUALIFIED TIMESTAMP (eIDAS)

QTSP: CertEurope Qualified TSA (EU Trusted List)
Token: RFC 3161 · serial 00A4-77F2-19C3-8B21
Certified time: 2026-08-10 11:47:09 UTC
Status: token signature VALID · CRL check PASSED
Legal effect: presumption of date & integrity (Art. 41)

RAIL B — PUBLIC BLOCKCHAIN ANCHOR

Chain: Ethereum mainnet · block 21 904 553
Anchor tx: 0x6b1e...9c4d (2026-08-10 12:00:11 UTC)
Merkle root: 4a7c19e2...88f0 · batch of 1 024 records
Inclusion path: 10 hashes · verification: PASSED
Independently checkable by any party, forever

4. SCOPE OF PROOF

This report proves that the listed file existed in exactly this form no later than the certified time, that it has not been altered since, and that it was captured through an attested device and account at the recorded coordinates. It does not, by itself, prove who or what is depicted, nor that the depicted scene was unstaged. Those questions remain matters of ordinary evidence and testimony.
